### 50th Gala Anniversary COVID-19 Protocol

All guests must present proof of full vaccination against COVID-19 or a diagnostic test result taken within 1 day for an antigen test and within 2 days for a PCR test prior to entry into the event.

A person is fully vaccinated for COVID-19 two weeks or more after they have received either: their second dose in a 2-dose series (Pfizer or Moderna), a single-dose of a 1-dose series (Johnson and Johnson/Janssen), or after finishing the primary series of a COVID-19 vaccine authorized by the World Health Organization. COVID-19 testing must be conducted on a sample taken within 1 day for an antigen test and within 2 days for a PCR test prior to entry into an event.

Masks are strongly recommended, but not required. The purpose of strongly recommending continued indoor masking is to prevent transmission of the virus, particularly to persons with prolonged, cumulative exposures (e.g., workers) and to persons with higher risk of illness.

Guests, staff, performers, and crew will be screened symptoms before they enter the venue. They will be instructed not to attend if they have symptoms of COVID-19 and/or they test positive. The Asian American Drug Abuse Program will comply with the Los Angeles County Public Health Department regulations on hosting large gatherings.
